TRANSACTION MANAGEMENT SOLUTIONS

INNOVATIVE IDEAS & INFORMATION

July 13, 2011

Did you know that TranDotCom's Invalid Payroll/Due Date functionality can make your team more efficient by minimizing:

- First payment defaults.
- The frequency of "Invalid Payroll" updates during batch renewal.
- The number of customers that don't get their payrolls fully validated prior to origination.

If you are interested in learning more about this functionality, contact TranDotCom Client Support at support@tdcemail.com

Pop up box after clicking originate button that tells you something is wrong; in this case the Due date does not match the payroll

Invalid Payroll/Due Date Summary

Warning! system DueDate information does not match the period/frequency selected. Future Payments may not be calculated correctly if the data is used. DueDate information is invalid for the following reason:

- * Date of payment Due does not match configured payroll

Override Reason

Do you want to Override this application anyway?

You can use the payoff calculator to adjust the due date
